

## PCSTAZIONE / MANAGEMENT SOFTWARE FOR VEHICLE INSPECTION CENTRES TO AUTOMATE AND SIMPLIFY LINE MANAGEMENT

### Main functions

- Management of instrumental tests and inspection progress reports.
- Multi-line management.
- Synchronisation of data received from weather stations compliant with the MCTCNet2 standard.
- Compatibility with remote control TM03 and previous versions.
- Online update via LiveUpdate.
- Easy to use, with a clear and intuitive graphical interface.
- Fully compatible with all equipment available on the market.
- Ability to modify data received from the PCPrenotazione (booking console) software.

**Simple and intuitive monitoring of the progress of vehicles undergoing inspection.**  
Automated functions and streamlining help reduce inspection times.

XAMINE obtained **approval certification** n° 016\_PCS\_RSW\_03\_RM in 2003, in compliance with the MCTCNet specifications issued by the Advanced Research Centre for Vehicle and Equipment Testing (CSRPAD).

In 2007, this **type-approval certificate** was updated to meet the requirements of Circular 64/404 of 19/01/2005, maintaining the same type-approval number.

In 2014, Xamine was declared **compliant with the MCTCNet2 standard** with software suitability certificate no. 325/PCS/RSW/ 325/PCS/RSW/NET2/12/RM issued by the CSRPAD.

**XAMINE IS NOW THE MOST WIDELY USED PCSTAZIONE SOFTWARE IN ITALY, THANKS TO ITS EASE OF USE AND PERFECT COMPATIBILITY WITH ALL EQUIPMENT AVAILABLE ON THE MARKET.**

Its **user-friendly interface** and **integrated automation features** are the outcome of many years of collaboration with leading manufacturers of automotive testing equipment.
